“From simple service calls to large public works jobs, no project is too small nor too large and every customer is just as important as the next.”

## — PG Cutting Services

### PG Cutting Services

Founded in 2005, PG Cutting Services is a company that prides itself on customer service. Our ultimate goal is to make our clients successful by working with them as partners, communicating and identifying the strategic needs of each project and ensuring that our services are exactly designed to meet or exceed those needs. We provide unwavering service and only use exceptional technology with every project.

Located in Southern California, PG Cutting Services works on concrete cutting and coring projects that range from simple small commercial jobs to very complex jobs such as major construction of highways, dams, and airports.

### From Service to Solutions

We believe in a simple principle. To do a job right, you have to use the right tools. That is why we invest only in the best sawing and coring equipment the industries offers. Our vacuums are unmatched and keeps our job sites clean, safe and exceed EPA requirements. Our drills and saws provide high performance cutting while giving smooth and precise cutting. However, it takes much more than just using high quality equipment to provide our customers with unmatched services. Just like our equipment, we invest in the best operators and team members. With a knowledgeable and experienced team combined with high quality equipment, you can count on PG Cutting Services for all you cutting needs.

### Our Mission

It is PG Cutting Services mission to provide our customers with superior quality in the concrete/asphalt cutting industry while providing only the highest level of customer service. We are guided by a relentless focus of core values instilled into our company to constantly strive to make our services more reliable, quicker, and most importantly, safer.
